

```
// Select Curated Wines From Database in  
Alphabetically Order  
$query8 = "SELECT * FROM curatedwines  
ORDER BY `filename` ASC ";
```

```
// Loop: Fetch Each Individual Wine From the Data  
// along with the following details: wine image, wine  
// name, vintage, and appellation  
while($row8 = mysql_fetch_array( $result8 )) {
```

Start of loop

Please note that this block of code is entirely written in PHP with HTML concatenation used by the **echo** statement

```
// Generate Each Individual Box  
// Individual Wine Boxes  
echo "<div style='background-color: white;  
' id='winebox'>";  
echo "<div class='winelineup'>";  
  
echo "<div class='container'>";  
  
echo "<img class='image' src='bottles/'  
.$row8['filename']. 'bottle.png' width='130'  
height='482' alt=''/>";  
  
echo "<div class='overlay' style='font-style:ital-  
ic;background-color:' . $row8['colorbackground']. '<br>';  
<br>';  
<div class='text'>";  
  
echo $row8['briefnotes'];  
  
echo "</div>";  
echo "</div>";  
  
echo "</div>";  
  
echo "<br> <div style='font-size: 28px;padding-top:  
10px; font-weight: lighter;  
'>  
  
.$row8['winename'];  
  
// wine Line up div  
</div>";
```

curatedwines.php
Page 1 of 2

Start

Process: Connect to
curatedwines table in
ninetypluswines database

Start **while** loop, cycling
through *curatedwines*
table while displaying
each wine box

Pull award and publication
infromation. Limit the awards
and publications to two
entries.

Generate graphics for each
wine box. Display bottle
image, and hover effect over
bottle, displaying tag lines,
and then finally displaying
wine name.

Display the following proper-
tites for each wine:
Current Vintage,
Appellation,
Price,
Shopify Button
“Add To Cart Code,” and
link to more information

continues

```
//Display of Seals and Ratings are limited to two on  
// Wine Module
```

```
//Pulls publication A, either Wine Spectator,  
// Decanter, Wine Enthusiast, or Jammes Suckling  
Rating  
$publicationA = array();  
$publicationA = $row8['publicationA'];
```

```
//Pulls Numeric Value Award A - Rating either 90 or  
above  
$awardA = array();  
$awardA = $row8['awardA'];
```

```
//Pulls publication B, either Wine Spectator,  
// Decanter, Wine Enthusiast, or Jammes Suckling  
Rating  
$publicationB = array();  
$publicationB = $row8['publicationB'];
```

```
//Pulls Numeric Value Award B - Rating either 90 or  
above  
$awardB = array();  
$awardB = $row8['awardB'];
